

Lever Mechanism and Trim

Standard Specifications

Total Door's lever locking mechanisms are an integral part of the Total Door assembly and are factory installed. Openings stands behind its lever locking mechanisms with a lifetime limited warranty.

LEVER LOCKING MECHANISMS

- Rated to 3 hours.
- ADA compliant.
- Available in all functions including exit devices and electric functions.
- Operate with any standard cam mortise cylinder.
- Compatible with levers of many different manufacturers.
- Have a normal life expectancy of 5 million cycles versus only 800 thousand required by BHMA and ANSI standards for mortise locks.
- Lock mechanisms have a Limited Lifetime Warranty.
